

ICP SCHOOL NETWORK

Since ICP's inception in 1994, the program has involved students and educators at middle schools, high schools, colleges and universities throughout the New York City Metropolitan area in Summer Research Institute Internships. Many educators return to their schools to teach new or enhanced curriculum based on their climate research experiences.

- 2002-2003 institutions where students and teachers are recruited and/or where teachers are using research education curricula.
- Alumni schools, currently inactive.
